

JOB POSTING

Position:

Lube Technician

Work Site

Envirogreen Technologies Ltd. Contaminated Waste Treatment Facility is located approximately 20 KM Southwest of Princeton, B.C. VOX 1W0.

About Envirogreen Technologies

Envirogreen Technologies Ltd. (ETL) is an established waste management company, leading the way in the treatment of hazardous and non-hazardous wastes. Our permitted hazardous waste treatment facility located outside of Princeton, BC, utilizes thermal desorption technology to treat a wide range of industrial waste and contaminated soil.

The Opportunity

ETL is looking for a motivated Lube Technician with proven experience to join our team. The Lube Technician works under the direction of the Mobile Maintenance & Site Services Supervisor and any assigned Supervisors and works with other employees within the company to ensure safe work practices and policies, compliances and regulations are adhered.

The Lube Technician will perform and document the fueling and greasing of site heavy equipment, inspection of the heavy equipment, maintain regular scheduled services and minor repairs. This position also requires the Lube Technician to complete pre/post inspections on all tools and equipment and follow contamination control and HAZMAT rules and regulations. Other responsibilities involve physical labour at the Work Site.

The Lube Technician will work closely with facility staff to create a positive and safe working environment, be a resource to management and facility staff for health and safety information and promote health and safety programs in the workplace.

Requirements

- Minimum Education: High School or equivalent.
- Minimum 3 years Lube Technician experience or in a similar role.
- Licence: Valid Class 5 driver's licence and access to reliable transportation.

Core Job Duties

- Employee required to complete pre/post inspections on all tools and equipment.
- Responsible for fueling equipment.
- Follow contamination control and HAZMAT rules and regulations.

- Perform scheduled service on all combustion powered facility equipment.
- Perform service and minor repairs on all combustion powered facility equipment in a timely and safe manner.
- Report all equipment mechanical deficiencies for maintenance and repair scheduling.
- Maintain mechanical workshops and storage facilities in a clean, organized and safe manner.
- Maintain an equipment service, maintenance and repair record.
- Responsible for tool inventory.
- Maintain suitable inventory of all needed supplies for regular servicing of all site mobile equipment.
- Be able to work in a team environment.
- General labour duties as required.
- All other duties as requested by supervisor or manager.

ETL has a competitive compensation plan including health benefit package, Group Retirement Savings program, supporting training, and PPE allowances.

Qualified applicants to send resume to Envirogreen Technologies Ltd. at: careers@envirogreentech.com

Qualified applicants should visit Envirogreen Technologies website: www.envirogreentech.com

About Princeton

Princeton, one of the sunniest places in BC, sits at the junction of the Similkameen and Tulameen rivers in the South Okanagan, East of the Cascades. The mountains, valleys, and hundreds of kilometers of backcountry roads are a beautiful natural setting for year-round outdoor activities. The rivers and lakes are excellent for tubing, kayaking, swimming or trout fishing. The nearby Kettle Valley Rail Trail is great for hiking and cycling.

Other amenities in Princeton include an outdoor pool, arena, curling club, bowling alley, golf course, basketball court, splash park, skate and bike park, community centre, theatre, library, and museum. For the hockey enthusiast, Princeton is the home of the Princeton Posse, a junior hockey club. There is also a regional airport, a riding club, music society, garden club, ATV club and many other organizations to get involved with.
