

## JOB POSTING

### **Position**

#### **Plant Mechanic (Night Shift)**

(Permanent Full Time) (4 days a week with OT)

### **Work Site**

Based out of Envirogreen Technologies Ltd.'s (ETL's) waste treatment facility located approximately 20 kilometres southwest of Princeton, BC.

### **About Envirogreen Technologies**

Envirogreen Technologies Ltd. (ETL) is an established waste management company, leading the way in the treatment of hazardous and non-hazardous wastes. Our permitted hazardous waste treatment facility located outside of Princeton, B.C., utilizes thermal desorption technology to treat a wide range of industrial waste and contaminated soil.

### **The Opportunity**

ETL is looking for Plant Mechanic to work under the direction of any assigned Supervisors/Foremen and works with other employees within the company to ensure safe work practices and policies, compliances and regulations are adhered.

The Plant Mechanic will perform and document the installation, assembly, repair, dismantling and preventative maintenance on our stationary industrial machinery in accordance with regulations, codes, permits, approved drawings and specifications. This position also requires the Plant Mechanic to troubleshoot and diagnose mechanical, hydraulic, chemical injection system, conveyor system, or pneumatic system issues with associated machinery and equipment.

### **Duties**

- Become familiar with our plant equipment and machinery, operations and production requirements, permits, regulations, reporting, manuals, computer programs and data entry requirements.
- Perform and document the installation, assembly, repair, dismantling and preventative maintenance on our stationary industrial machinery in accordance with regulations, codes, permits, approved drawings and specifications.
- Troubleshoot and diagnose mechanical, hydraulic, chemical injection system, conveyor system, or pneumatic system issues with associated machinery and equipment.
- Follow running and shutdown instructions.
- Perform mechanical, electrical and all other energy-source disconnects when required for lock out or facility repair.
- Assist with planned and reactive maintenance.
- Complete all assigned quality control/quality assurance checks.
- Welding, cutting, pipe fitting, and general fabrication
- Support and promote health and safety projects and initiatives.

## **Requirements**

- Minimum Education: High School or equivalent.
- Minimum 5 years related experience as a mechanic in a plant setting.
- Red seal in Millwright/Mechanic is considered an asset but not a must.
- License: Valid Class 5 driver's license and access to reliable transportation.
- Language: English.
- Ability to wear respiratory protection (e.g. half- and/or full-face respirator).
- Willing and able to work indoors/outdoors in year-round weather conditions
- Must be able to work in wet, humid, hot, high noise, and dusty environment.
- Working with hazardous materials.
- Working near moving mechanical parts and heavy equipment.
- Physical demands included (but are not limited to): using proper lifting techniques for heavy lifting, manual dexterity, climbing ladders, working in and about confined spaces and/or high locations.
- Proper PPE selection for task.

## **What We Offer**

Wage: \$28.00 to \$42.00 Hour

This position is under an averaging agreement with over time.

ETL has a competitive compensation plan including health and dental benefit package, group retirement savings program, onsite and offsite training, and PPE allowance.

Please note, the salary range mentioned in this job posting should serve as a guide. The final compensation offered may vary based on a variety of factors including bonuses and/or incentives, or a candidate's skills and experience. Envirogreen Technologies Ltd. is committed to providing a fair, equitable, and competitive rewards package that reflects the value an individual brings to our organization.

Envirogreen Technologies Ltd; is an equal opportunity employer, and we do not discriminate on the basis of race, religion, color, national origin, sex, gender, gender expression, sexual orientation, age, marital status, veteran status, or disability status.

This safety-sensitive position must be filled immediately. Pre-employment drug and alcohol testing is required for this safety-sensitive position as immediate site access is required

## **Work Conditions**

- High noise areas – hearing protection may be required
- High dust levels – respiratory protection may be required
- Hazardous materials – proper PPE selection for task required
- Weather conditions – position is outdoors 12 months/year
- Repetitive movement
- Equipment elevation changes
- Work at height
- Confined space

### **About Princeton**

Princeton, one of the sunniest places in BC, sits at the junction of the Similkameen and Tulameen rivers in the South Okanagan, east of the Cascades. The mountains, valleys, and hundreds of kilometers of backcountry roads are a beautiful natural setting for year-round outdoor activities. The rivers and lakes are excellent for tubing, kayaking, swimming, and trout fishing. The nearby Kettle Valley Rail Trail is great for hiking and cycling.

Other amenities in Princeton include an outdoor pool, arena, curling club, bowling alley, golf course, basketball court, splash park, skate and bike park, community centre, theatre, library, and museum. For the hockey enthusiast, Princeton is the home of the Princeton Posse, a junior hockey club. There is also a regional airport, a riding club, music society, garden club, ATV club, and many other organizations of interest.
