envirogreen technologies ltd.

JOB POSTING

Position:
Red Seal Industrial Electrician
Wage- $45.00 to 57.00 /hour

Work Site
Envirogreen Technologies Ltd. Contaminated Waste Treatment Facility is located approximately 20 KM Southwest of Princeton, B.C. V0X 1W0.

About Envirogreen Technologies
Envirogreen Technologies Ltd. (ETL) is an established waste management company, leading the way in the treatment of hazardous and non-hazardous wastes. Our permitted hazardous waste treatment facility located outside of Princeton, BC, utilizes thermal desorption technology to treat a wide range of industrial waste and contaminated soil.

The Opportunity
ETL is looking for a motivated Industrial Electrician with proven experience to join our team. The Industrial Electrician works under the direction of the Plant Supervisor and any assigned Supervisors and works with other employees within the company to ensure safe work practices and policies, compliances and regulations are adhered.

The Industrial Electrician will perform and document the installation, assembly, repair, and preventative maintenance on our electrical components in an industrial setting in accordance with regulations, codes, permits, approved drawings and specifications. This position also requires the Industrial Electrician to maintain, test, troubleshoot, service and repair industrial electrical equipment, such as motors, generators, pumps and lighting systems and associated electrical controls. Other responsibilities involve physical labour at the Work Site.

The Industrial Electrician will work closely with facility staff to create a positive and safe working environment, be a resource to management and facility staff for health and safety information and promote health and safety programs in the workplace.

Requirements
- Industrial Electrician **Red Seal** designation is a must.
- Minimum Education: High School or equivalent.
- Certification as an FSR (Field Safety Representative) would be an asset.
- Minimum 5 years Industrial Electrician experience.
- Basic understanding of office computer software and systems.
- Licence: Valid Class 5 driver's licence and access to reliable transportation.

Core Job Duties

- Perform and document the installation, assembly, repair, and preventative maintenance on our electrical components in an industrial setting in accordance with regulations, codes, permits, approved drawings and specifications.
- Troubleshoot and diagnose and repair equipment or components directly or indirectly exposed to electrical power such as motors, generators, pumps and lighting systems.
- Follow running and shutdown instructions.
- Perform mechanical, electrical and all other energy-source disconnects when required for lock out or facility repair.
- Diagnose, locate the cause of, and repair malfunctioning systems and components using test equipment.
- Maintain electrical workshop and storage facilities in a clean, organized and safe manner.
- Maintain an accurate equipment service, maintenance, and repair record.
- Ensure all work performed adheres to all relevant organizational, provincial, and federal safety regulations, codes and specifications.
- Responsible for tool inventory.
- Liaise with suppliers and outside contractors for major repairs or upgrades.
- Maintain facility analyzers and report deficiencies.
- Maintain water treatment facility and report deficiencies.
- Maintain all related site electrical devices from 300HP motors to 120V receptacles.
- Maintain facility transformer room in a clean and safe condition.
- Assist in design and upgrades of new or replacement equipment.
- Maintain a recorded inventory of consumable electrical parts for facility operation.
- Participate in facility upgrade planning.
- This safety-sensitive position must be filled immediately. Pre-employment drug and alcohol testing is required for this safety-sensitive position as immediate site access is required.

ETL has a competitive compensation plan including health benefit package, Group Retirement Savings program, supporting training, and PPE allowances.

About Princeton

Princeton, one of the sunniest places in BC, sits at the junction of the Similkameen and Tulameen rivers in the South Okanagan, East of the Cascades. The mountains, valleys, and hundreds of kilometers of backcountry roads are a beautiful natural setting for year-round outdoor activities. The rivers and lakes are excellent for tubing, kayaking, swimming or trout fishing. The nearby Kettle Valley Rail Trail is great for hiking and cycling.

Other amenities in Princeton include an outdoor pool, arena, curling club, bowling alley, golf course, basketball court, splash park, skate and bike park, community centre, theatre, library, and museum. For the hockey enthusiast, Princeton is the home of the Princeton Posse, a junior hockey club. There is also a regional airport, a riding club, music society, garden club, ATV club and many other organizations to get involved with.
